Street Renaming

Policy authored by Engineering Division

Property owners who desire to change the name of an existing road or street must submit a petition to the Board of County Road Commissioners. One hundred percent of the property owners on the road or street being petitioned must agree to the name change for the Board to consider its approval. The Board also requires the Township or local agency in which the road or street is located to approve such a change. Petitioners shall comply with the Kent County Road Commission "Street Naming Guide" for guidelines on appropriate road or street names.
